PINK FLOYD

PIPER AT THE GATES OF DAWN

"A man from being a good guitarist, I don't really have any ambitions."
—Syd Barrett 1967

PINK FLOYD

PIPER AT THE GATES OF DAWN

This is the definitive critical review of the first Pink Floyd album.

Piper stands alone as the only Floyd album on which Syd Barrett wrote the bulk of the material and performed as lead vocalist and pianist.

This independent film review draws on over five hours of Pink Floyd performing the songs which make up Piper, in addition to the reflections of the band themselves. The film also features a unique interview with Syd Barrett who discovered Pink Floyd and produced the album's cover art. We also hear the views of Norman Smith the album's producer, and John "Happy" Hopkins, the original Floyd promoter and presenter of the famous UFO Club, in addition to the voices of a host of fans of music, critics and others.

The DVD features highlights from:
—David Gilmour: *Interstellar Overdrive*, *See Emily Play*, *Astronomy Domine*, *Après Ski*, and *Time*.

PINK FLOYD

THE PIPER AT THE GATES OF DAWN

PINK FLOYD

A SAUCERFUL OF SECRETS

PINK FLOYD

A SAUCERFUL OF SECRETS

A *Saucerful of Secrets* was the transitional album between the psychedelic beginnings of the band with original front man Syd Barrett to the more focused progressive rock that defined the band's later work and the arrival of David Gilmour.

This comprehensive film documents the turmoil of recording during the breakdown of Barrett and the shaping of the cohesive unit that was to be the shape of Pink Floyd for the next four studio albums. The DVD draws on archive performance footage and interviews with the band alongside the candid insights of Floyd insiders and members of the original production team.

PINK FLOYD

UMMAGUMMA

PINK FLOYD

UMMAGUMMA

Ummagumma is a transitional album marking the end of the major rock-oriented phase of Pink Floyd before the band moved on to the "late seventies" of *Atom Heart Mother* and *Mothership*. The title of the album is pronounced by the band "u-m-m-a-g-u-m-m-a" by the band, and it is not just pronunciation which presents difficulties in approaching this curious album. *Ummagumma* still today splits the world of Floyd supporters into those who love the work and those who feel that much of it is frankly unlistenable.

In this package, independent review material by Rob Storm, we hear the views of the band in retrospect, combined with the views of the album's Executive Producer, Norman Smith. The film draws on archive performance footage of Pink Floyd performing extracts from *Ummagumma* to produce the most frank, comprehensive and honest review of a landmark in rock history.

Features: Syd Barrett: *The Great Gig in the Sky*, *Gun*, *Caribbee*, *David Gilmour*, *Neil Ardley*, *Jackie MacLaine* and more.

ATOM HEART MOTHER

"Floyd picked up the paper and said 'Atom Heart Mother' and the others said, 'Yeah, that sounds good!'"
—Neil Spinrad

PINK FLOYD

ATOM HEART MOTHER

Atom Heart Mother was Pink Floyd's first "concept" album. Ambitious and challenging, the month-long group made an extended instrumental suite on which and arranged by jazz-guitar composer Ron Geesin.

Thirty-six years on, Ron Geesin reveals the work and describes the circumstances surrounding the creation of the album. We also hear the views of David Gilmour, Roger Waters and Nick Mason.

This comprehensive DVD features the only known footage of a performance of *Atom Heart Mother* with the complete track list clear conducted by John Aldous from the Bath Festival in 1970.

Also included are reviews of performances of the prototype work *The Amazing Pudding* performed by Pink Floyd without the orchestra from radio and television archives, and two live archive recordings of Floyd performing of *Pat's Old Suit*.

MEDDLE / DARK SIDE OF THE MOON

PINK FLOYD

MEDDLE

First released in 1971, *Meddle* was Pink Floyd's first great album in the post-Syd Barrett era - a landmark album in the career of a remarkable band that set new standards in British Progressive rock.

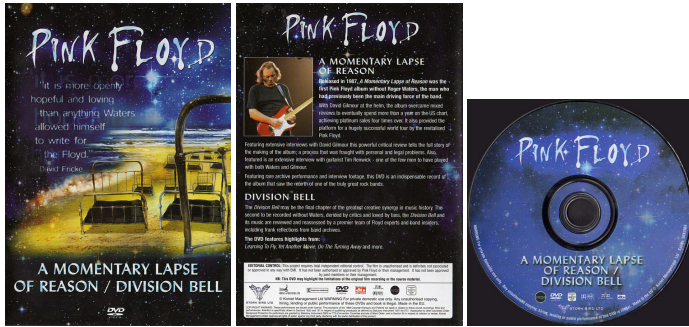

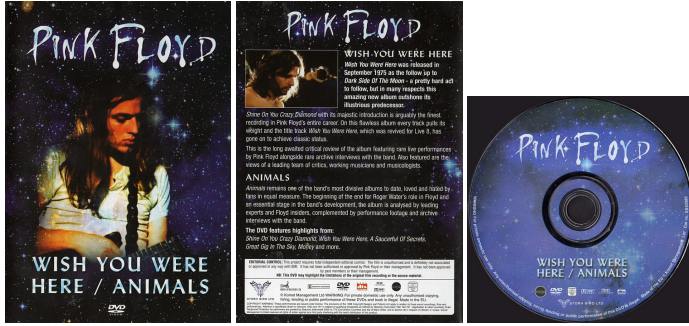

Featuring a superb line-up of leading rock journalists and music reviewers including the *Rolling Stone*, *Clash* and Alan Clayson, this DVD is a fascinating, authoritative critical review of one of the most powerful and enduring albums in the Pink Floyd canon. With highlights including legendary live performances of album tracks *One Of These Days*, *Echoes* and *Fearless* as its backdrop, the programme allows the two studio albums to shine and explains why it remains a special place in rock history.

DARK SIDE OF THE MOON

The ultimate retrospective of one of Pink Floyd's most influential albums, this film brings you the first-hand recollections of the band members from the studio and archives alongside classic performance footage. To complement the band's insights are the candid views of band members, producers and members of the original production team.
